UPRIGHT ROTARY KNITTING MACHINE

For Knitting Shirts, drawers, &c. We have patterns for the following size cylinders: 9, 12, 13, 14, 16, 17, 18, 19, 20. We use an iron table, planed and polished, with either one or two cylinders on each table. Our large cylinders are fitted up with four feeds each, and in our experience we have used the following gauges: 8, 8½, 9, 10, 12, 13, 14, 15, 16, 17, 18, 20, 24. The 14 gauge yarn weighs 9 grains to 19¼ feet in length, 18 gauge 6 grains, 20 gauge 5½, and so forth.

The 18 inch cylinder for 20 gauge cloth contains 754 needles, with four feeds and 35 revolutions (the proper number), will make 1,759 stitches per second, or 105,560 stitches per minute. We have lately added to the machine our new stop motion at a saving in needles to the knitter of 50 per cent over the old one (Cushman & Akin combined), and in the number of quarters run off a saving of 400 per cent. The machine runs light, has but few gears, and these so situated as to run at a low speed, thus enabling the user to run faster than any machine now in market, and at the same time with no greater amount of wear and tear, and on this account also, being almost noiseless (a very important point), allows the knitter to detect at once by ear any serious trouble with the needles. To change the machine from plain to ribbed goods requires only four new presser wheels, which can be furnished for eight dollars per cylinder. To change the gauge requires new burr wheels, mold and needles.

We have been engaged in the manufacture of these machines since the patent was first issued (September, 1855), and having spared neither time or money in their improvement, can now confidently offer to the public a Knitting Machine second to none for completeness and capacity. The total length of a 14 gauge thread used by one cylinder in one day of 11 hours is 227 miles, enough to reach from New York to Washington, D. C. Total length required to make one shirt is 2½ miles.

Cannon Place Book Store.

Cannon Place Paper Store.

Cannon Place Blank Book Store.

Cannon Place Stationery Store.

It has for years been the aim of the proprietors to make Cannon Place Store a model in its capacity to supply its customers with every article they could reasonably expect to find in a well appointed Book, Paper and Stationery Store.

With this object in view, they have been continually adding new lines of goods to their assortment, and have so organized and systematized their business as to insure a more full and complete stock always on hand than can usually be offered.

A Greater Range of Goods can be found at 9 & 10 Cannon Place, than in any other Store of the kind in the State.

This we think is a fact, for even in New York City one finds it necessary to visit one book store for School Books; another for Sunday School Books; another for Music Books; another for English Books; and still another for Medical Books; a Blank Book establishment for Blank Books, Drafts, Notes, Diaries, etc.; a Stationer's for Law Blanks; a Retail Stationery Store for Fine Stationery, Initial Stamping, etc.; an Engraver for Wedding or Calling Cards; a Toy or Fancy Store for Croquet or other Games; and to a Paper Warehouse for Wrapping, Roll or Printing Paper, Bags, Direction Labels and Tags; and would be put to their wit's end to find

Numerous other Articles which help make up our Stock.

As an evidence that the public appreciate our endeavors to suit them in goods, prices and style of dealing, we quote the fact shown by the annual returns of sales made to the revenue department, viz., that H. B. NIMS & Co.'s sales are greater than those of any other Bookseller in the State, with one exception, out of the city of New York.

PRINTING HOUSE OF CHAS. VAN BENTHUYSEN & SONS.

INTRODUCTORY.

The first Troy Directory was published in 1829, just forty years since, and with the present issue we give a few statistics connected with its publication as compared with this volume, and a brief outline of the general characteristics of that of 1829. The first copy of the Troy Directory, which we now have before us, was published by John Disturnell, No. 218 River street (next door to the present office of publication), up-stairs, who kept a bookstore, circulating library, and reading room, as it appears from the back cover of the Directory, the terms, etc., of which occupy the entire page. The publisher, Mr. Disturnell, is still an active business man of New York, and is largely engaged in the publication of statistical works, maps and books, the U. S. Post Office Directory, and books relating to our favorite watering places, summer resorts, etc.

The book itself is a 12mo paper covered pamphlet, containing in all seventy pages of matter, fifty-four pages of which is devoted to the Directory proper, and the balance is made up of advertisements, city and county officers, and officers of our local institutions. It gives the names only in the "first four wards" of the city, which composed the entire city at that time, with the exception of Albia and the Nail Factory (5th and 6th wards), which had but few inhabitants.

The Troy House was kept by Platt Titus, No. 1 First street, and his advertisement of the Troy and Albany stage line appears on one of the advertising pages, and reads thus: "Troy and Albany. P. TITUS' stage runs regularly, twice a day, to Albany, and starts from the TROY HOUSE, No. 1 First street, at 8 o'clock A. M. and 2 P. M. May, 1829." The only advertiser in that Directory, now engaged in active business (excepting the publisher), is Myron King, engraver, whose place of business at that time was 8½ State street, from which he removed at the time the buildings were rebuilt by the Paine estate, and is now located on the same street but a short distance from his former location. We give below, with the exception of those named above, the names of the firms of the entire list of advertisers in that volume. On the front outside cover, at the top of the page, is the title, "The Troy Directory for the year 1829," occupying about one-fifth of the page. Immediately below is the advertisement of "Calders & Co., Stationers' Hall," enumerating the articles kept in stationery establishments, and filling the remainder of the page; the others in the following order: R. M. Stratton & Co., stoves; John P. Fellows, stoves; Craft, Hart & Pitcher, hardware; Russell & Wing, dry goods; J. C. Heartt & Bros., hardware; Israel Seymour, stoneware; N. L. Hazen, watches, etc.; A. Slason, crockery; Calders & Co., lottery office; Tuttle & Gregory, bookbinders and printers; A. Treat, lookingglasses; Troy and Schenectady stages, Wm. Pierce and John Barney, proprietors, and another Troy and Schenectady line, E. Babcock, proprietor; two lines of stages from Troy to Boston, one leaving Babcock's hotel, 130 River street, and the other Thurston's hotel, 140 River street; Peleg W. Besse, combs and brushes; Charles S. Tewksbury, commission; William T. Smith, furniture; William Francis, hairdresser; J. & T. Howland, drugs and oil; David McKelsey, chairs; J. Hanks, bellfounder; Fassett & Selden, drugs; Sam'l Learned, boots and shoes; B. Hatch, hatter; I. McConihe, George Butler, Hollister B. Gilbert and E. Wilson, jr., attorneys; I. J. Hendryx, tailor; Fry & Rousseau, hatters; Elias Disbrow, carpenter; G. Corning & Co., drugs; Adam Smith, burr millstones; B. Pierce & Son, crockery; A. H. Sheldon, dry goods; Elam Buel, justice of the peace; G. M. & C. B. Griffin, jewelers; Troy Bathing House; Luther B. Wyman; L. Stratton & Son, furnace; Charles Bennett, dyer; William C. Johnson, dry goods; Sharpe & Clark, dry goods; Alanson Randol, dry goods; Smith & Thurber, dry goods. *City officers*: Mayor, Samuel McCoun; Chamberlain, John Thomas; Collector, James A. Zander; City Superintendent, Harvey Smith.

Troy had but three banks at that time: The Farmers' Bank, Bank of Troy, and the Troy Savings Bank. Of the officers of the Farmers' Bank, Philander Wells is the only living representative, and of the Bank of Troy, Daniel Southwick, director, S. K. Stow, bookkeeper, and Thaddeus W. Patchin, teller, are the only survivors of that institution. Of the Savings Bank, not one of its former officers named in the Directory are living. The other institutions that have a place among the advertisers are the Rensselaer and Saratoga Insurance Co., Troy Library, Troy Temperance Society, Troy Steamboat Co., Troy Female Seminary, The Walnut Grove School and the Mechanic Humane Association.

The number of names contained in the Directory of 1829	2,080
The number of names contained in the Troy Department of the present issue 1869	15,406
Increase	13,326

The increase since 1868 has been 952.

There are eighty-six names of persons whose names were in the first Directory that appear in the present issue, and we find on examination the names of forty persons, now living out of the city, whose names appeared in the first. A complete copy of the Troy Directory from its commencement is in the possession of the present publishers, Wm. H. Young & Blake, from which have been selected the substance of the foregoing facts, and can be examined by those interested, at their store, Nos. 8 and 9 First street.

TESTIMONIALS.

Having attended an examination in Mathematics in Prof. Willson's school, I take pleasure in expressing my great satisfaction with the manner in which it was conducted, and with the excellence of the result. The thorough knowledge of principles exhibited by the members of the class, and their ready command of them in practical application, were a sufficient indication of the discipline they had received in this department of their training. I cordially recommend the school as one well worthy of general patronage.

TROY, June 30, 1859.

DASCOM GREENE,
Prof. of Mathematics, &c., Rens. Pol. Institute.

It is with great pleasure that the undersigned, having attended an examination in the classics, held at Troy Academy, on the 7th of June, 1861, express their appreciation of the results of the training under Prof. Willson. The proficiency, both in the Latin and Greek languages, attained by those who have received instruction from him, their familiarity with the various forms, and their exactness in translation, testified in no doubtful manner to the diligence and tact of their instructor. It should be stated in connection with the above, that the recitations were from portions of the work selected by the committee at the request of the principal, and that no opportunity was given for any other preparation, than that already furnished by the discipline of the session.

The number of the box signaling the fire will be struck upon the gongs of all the Engine Houses; also upon St. Paul's, St. Peter's and St. Mary's Church bells. For example: To announce an alarm from Signal Box No. 24, the bell will be struck TWICE, and, after a pause of seven seconds, will be struck FOUR times; thus, 2—4. THIS Company owns and controls the entire water power of the Mohawk River at Cohoes, and has constructed one of the *finest Dams and Gate Houses* in the country to divert the water of the river to their canals, of which they have a series, so as to use the water under six different falls, having an aggregate head and fall of one hundred and twenty feet.

The company lease the water power with the lot at the rate of about *twenty* dollars per annum for a *horse power*. The power costs *less* than *one-third* of the cost of steam power, and is always ready and reliable.

Only about one-fourth of the available power is at present used, thus affording a large amount of power still available for manufacturing purposes.

Cohoes being centrally located, with easy facility for Railroad, Canal and River transportation to market, makes it one of the most desirable points for manufacturing in the United States.

No. 17 SMITH'S AVENUE, NORTH TROY, N. Y.

Important recommendations of this Pipe are Cheapness and Durability. They improve with age and use, and are easily and quickly laid, forming a perfect joint.

The Proprietors of the TROY REED AND HARNESS MANUFACTORY beg most respectfully to tender their thanks to their numerous friends, for the extensive patronage and support which this Old Established House has received in the past, and solicit its continuance in the future.

They also embrace the opportunity of informing Manufacturers in general, that they have the MOST IMPROVED AND COMPLETE SET OF REED MAKING MACHINERY in the country.

As a large stock of Wire, ready polished for immediate use, is always kept on hand, and as the machinery is capable of turning out 500 Reeds per week, large orders can be executed at the shortest notice.

In the HARNESS DEPARTMENT, great care is taken to procure the best TWINE and VARNISH to be found in the Market.

In connection with their Reed and Harness business, L. & C. deal in all the SUPPLEMENTARY ARTICLES required in Cotton and Woolen Manufactories. Their arrangements with the principle Manufacturers of these Articles are such, that they can, (having no rent to pay for this part of the business,) and will adhere to their strict rule, to sell only at the Maker's Prices, and trust to merit an increased patronage.

Reeds re-set and repaired in a neat and workmanlike manner.

RELIABLE ORDERS from any part of the United States, Canada, Mexico and South America, will meet with prompt and careful attention, and be filled at the Lowest Market Prices.

TROY MEDICAL CLAIRVOYANT AND HEALING INSTITUTE,

ESTABLISHED 1867, for the cure of all CHRONIC DISEASES.

No. 86 CONGRESS STREET.

The following diseases are among those daily cured at this Institute:

Nervous Diseases of all kinds, Local and General Debility, Catarrh, Consumption, Diabetes, Liver Complaint, Heart Disease, Sexual Weakness, Diseased Eyes, Urinary Obstructions, Spinal Diseases and Humors of Every Kind.

Special attention paid to the treatment and cure of all Female Complaints, no matter how recent, or how long standing, or how delicate in nature.

DR. M. WILLIAMSON, M. D.

The Proprietor and Consulting Physician of this Institute, is acknowledged to be the clearest, most accurate and reliable Medical Clairvoyant in this country. By this method all diseases are located and accurately described without questioning the patient; the means and method of cure indicated with such precision, positiveness and reliability as to rank him the first Medical Seer of the age. His healing powers are such as to give him instant control over the most stubborn cases of CHRONIC DISEASES, as well as to be a marvelous healer of the sick.

The Doctor's long, extensive and successful practice in the treatment and cure of Chronic diseases—whether simple, delicate or complicated—has caused many hundreds of valuable testimonials, both open and confidential, to be contributed by all classes of society of positive cures, many of which are of a confidential nature as to exclude them from publicity.

All patients are guaranteed the strictest secrecy in the consultations, examinations and treatment—therefore, no invalid need hesitate to apply for medical aid through any fear of exposure.

Invalids at any distance will be as thoroughly examined, and the means of cure as accurately pointed out as if present, if represented by a member of the family or by letter, stating name, age and one leading symptom of the disease. Inclose a fee of $2. Address
